IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF TEXAS
WACO DIVISION

UNITED STATES OF AMERICA	*	
	*	
V.	*	CRIMINAL NO. W-16-CR-296
	*	
KENDRIC DEMETRI TURNER	*	

FACTUAL BASIS

Had this case proceeded to trial, the United States Attorney for the Western District of Texas was prepared to prove and would prove beyond a reasonable doubt that:

On or about September 16, 2016, in the Western District of Texas, Defendant,

KENDRIC DEMETRI TURNER,

did knowingly possess and attempt to possess material which contained one or more images of child pornography, to-wit: images depicting minors, including prepubescent minors and minors who had not attained twelve (12) years of age, engaging in genital-genital, anal-genital, oral-genital sexual intercourse and lascivious exhibition of the genitals and pubic area, that had been mailed, shipped and transported using any means and facility of interstate and foreign commerce, and that had been produced using materials that had been mailed, shipped and transported in and affecting interstate and foreign commerce, by any means, including by computer, all in violation of Title 18, United States Code, Sections 2252A(a)(5)(B), 2252A(b)(2), and 2256(8)(A).

Specifically, the United States Attorney would prove beyond a reasonable doubt that:

An investigation was begun into the online activities of a certain IP address that was associated with downloading child pornography. The IP address was associated with the residence of the Defendant, KENDRIC DEMETRI TURNER.

On September 20, 2016, special agents with the Federal Bureau of Investigation interviewed the Defendant at his residence in Copperas Cove, Texas, which is located in the Waco Division of the Western District of Texas. TURNER agreed to cooperate and he admitted to agents that he searched for and downloaded images of child pornography via the Bit Torrent network. He admitted there was child pornography currently on his Toshiba Satellite laptop. In addition, he told agents that the old hard drive also contained child pornography. TURNER voluntarily provided consent to search both the laptop and the old hard drive.

A forensic examination was conducted and revealed approximately 1,273 images of child pornography and 42 videos either of child pornography or child erotica.

The images that TURNER possessed included prepubescent minors engaged in sexually explicit conduct. The images of child pornography possessed by the Defendant had been mailed, shipped and transported using any means and facility of interstate and foreign commerce, i.e. the Internet. In addition, the images were produced on materials that had been transported in and affected interstate and foreign commerce.

Respectfully submitted,

RICHARD L. DURBIN, JR.
United States Attorney
